I refer to the incentives program of the Perishable Distribution Center at El Paso International Airport, El Paso, Texas.

In particular, I would like to express this Consulate General's recognition for the Airport's work with its worthy charge, which will help promote the international trade industry as well as the aviation industry. Likewise, for your interest in developing an air cargo route with the purpose of connecting producers and distributors of marine and flower growing products with the local El Paso market and, for creating more opportunities for Mexican businesses in the Border region.

I concur with you in supporting the export market and in assisting Mexican business in participating in the economic development of the region.

This Consular Representation will contact economic action offices in various states within the Mexican Republic who could be interested in benefitting from the advantages offered by the use of the aviation infrastructure in EL Paso, Texas.

I reiterate to you the Consulate General of Mexico's recognition for the work carried out, wishing you every success in this important project.

Sincerely,
